PERSONAL PROJECTS

Rashobooks

- A book review website using Python Flask where users will be able to register then log in using their username and password. Once they log in, they will be able to search for books, leave reviews for individual books, and see the reviews made by other people. Users will be also able to query for book details and book reviews programmatically via the website's API. <https://rashobooks.herokuapp.com/>

DailyIncome

- An affiliate website built with Wordpress where members pay a one-time registration fee by purchasing a Coupon Code before becoming a Premium Member of the website. Premium members earn points via referrals, reading and commenting on posts, sharing contents, and logging in daily. Members can redeem the points earned to Real Money. <https://dailyincome.com.ng/>
